Sheet Metal Work for Interior and Exterior Use

CATALOGUE No. 45

General Offices, 733-737 South Halsted Street
Factory, 761-771 Mather Street
CHICAGO, ILLINOIS

TO OUR PATRONS

IN PRESENTING this catalogue, Number 45, of Art Metal Ceilings and Side Walls, we take pleasure in calling your attention to the great number of new and handsome designs which we have recently added and which are adaptable for all classes of buildings.

Having the finest equipped sheet metal plant in the country, many of the machines have been designed and built by us for the special work which they are intended for, and having only experienced hands to operate them, we are therefore enabled to turn out the finest goods on the market.

We pay particular attention to our stamping, the smallest detail being brought out with sharpness and distinctness that cannot be equaled.

Our plates are made with a full bead on all four sides, and being resheared after stamping we have an absolutely perfect and tight-fitting plate.

We employ our own modelers and are therefore enabled to make special designs from Architects' details.

In this catalogue we have only shown a few of the many designs that can be made from the various panels, borders, mouldings, coves, etc., and if plans or measurements are sent us, we will be pleased to submit designs and prices.

With the best materials and first-class workmanship at your command we solicit a share of your patronage.

Yours truly,

FRIEDLEY-VOSHARDT CO.

CHICAGO, ILLINOIS

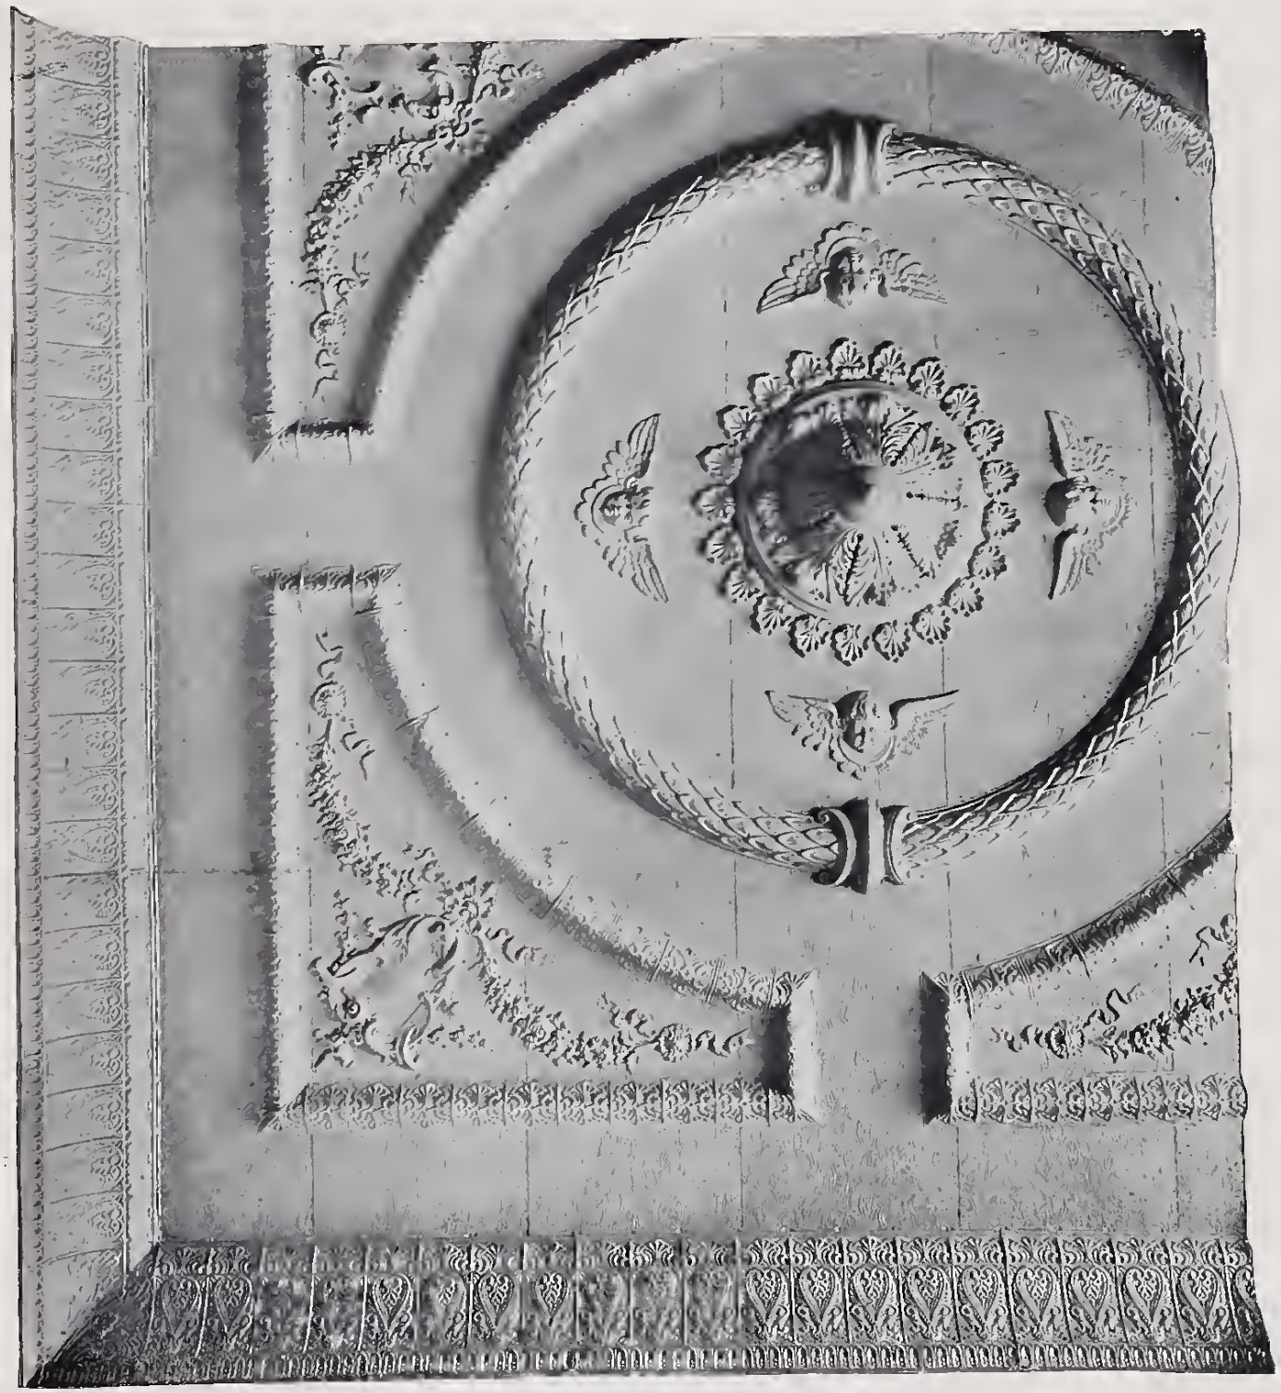
782484-0 A JJr 52 01-28

Design No. 5123

Composed of Cornice No. 5068, projection 16 inches, drops on wall 16 inches; Field Plate No. 6038, 24x24 inches; No. 8006, 24x24 inches; No. 5018, 24x24 inches; Moulding No. 5111, width 6 inches, depth 2¼ inches; Center Piece No. 5110, 96x96 inches.

Design No. 6729

Design No. 8179



Design No. 8207

This design is made to represent Stucco or Carton Pierre. and when put up right is far superior to either of them. The leaf and band moulding, center drop and ornaments are made of zinc. with background of No. 2162, made of galvanized iron; Cornice No. 5128 and Moulding No. 5111 are made of steel. This ceiling cannot be used in a room smaller that 17x17 feet. Prices quoted on this design upon receipt of size of room.
